# Make a world of difference

**BTCV's long experience in the UK enables us to work with communities overseas. Together, we achieve positive change in the lives of people, their environments and in organisations striving to do this locally.**

**...will you help us make  
a world of difference?**

inspiring people, improving places

# Help BTCV International make a difference

Our work involves a lot of behind-the-scenes effort, building the relationships and working with communities to find out how BTCV can best help them.

**Please will you help us?** Just a modest regular amount will help BTCV unleash the potential of more communities around the world where voluntary environmental action is needed.

**£3 a month will help BTCV International reach out to one additional community each year**

**£5 a month will help BTCV support organisations to develop their own sustainable funding sources**

**£15 a month will help us to train an overseas organisation to run its own local volunteer programmes**

We provide much more than an amazing experience for volunteers like you, who have joined our holidays. The holidays are an integral part of wider work that BTCV is doing wherever we work.

By supporting BTCV International with a donation, you'll be helping build a sustainable, world-wide network of environmentally active communities.

# Thank you!

PS: You can set up a Direct Debit using this form or by visiting [www.btcv.org/donate](http://www.btcv.org/donate), where you may also make a one-off donation if you choose.

*In Romania, our volunteer projects in Almas community have brought local organisation AGORA onto the international stage. Now, AGORA and conservation volunteering in Romania benefit from BTCV's wider experience.*

*In Alpago, Italy, BTCV has built up the momentum which has led to the establishment of a local environmental group. BTCV is now helping that group to make the most of their enthusiasm.*

*In Lesotho, as well as creating safe access to one of the country's famous beauty spots, we are working with locals to develop sustainable tourism which will allow them to benefit through the protection of scarce natural resources.*
