Discos and musical entertainment with experienced DJ's, comperes and presenters are available to cater for all music & events.

Digital projector and screens

Laptop for powerpoint presentations

DVD play back

We can recommend discos and entertainment for children's parties from 5 years and upwards. The company we use have a wealth of experience with children's entertainment, ensuring the highest standards.

DJs are fully equipped with all the latest chart tunes, together with all the party classics that children know and love! DJs will play games with the children, such as pass the parcel, musical chairs, musical statues and any other game they want to play!
Don't worry.....adult parties can be catered for too!

Perhaps you're thinking of live music?

We can help with that too, with regular jazz evenings and bands at the centre we can help and advise.

We can help with any other audio visual equipment that you might require.

- discos and some audio visual services are provided by an external contractor on behalf of Singleton Environment Centre
